Gentlemen:

This refers to the inspection conducted by Mr. R. E. Baer of this office during the period June 17-28, 1985, of activities authorized by NRC Operating License DPR-51 and NPF-6 for Arkansas Nuclear One, Units 1 and 2, and to the discussion of our findings with Mr. T. Areas examined during the inspection included portions of the radiation protection program applicable during routine plant operations. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspectors. These findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified.

We have also examined actions you have taken with regard to previously identified inspection findings. The status of these items is identified in paragraph 2 of the enclosed report.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,
