SEALED SOURCE FILES

L&E:LB:WGM

Laboratory for Electronics, Inc.
Tracerlab Division
1601 Trapelo Road
Waltham 54, Massachusetts

Attention: Mr. William Karp

Gentlemen:

Reference is made to your letter dated December 11, 1963, which contained a description of your Models CS-15 and CD-15 sealed sources. It was noted that Drawing No. SE-12 describing the CD-15 source was marked "Company Confidential."

Section 2.790, Title 18, Code of Federal Regulations, Part 2, provides that a person who proposes that a document or a part thereof be withheld from public disclosure shall at the time of filing submit an application for withholding. Further, the applicant shall in so far as possible incorporate on a separate paper any parts that are to be withheld. The document may be withheld from public inspection if disclosure of its contents is not required in the public interest and if disclosure would adversely affect the interest of Laboratory for Electronics, Inc.

In order that we may complete our evaluation of your December 11 letter and its enclosures, you should furnish to this office the reasons why disclosure of documents would adversely affect the interest of your company and why disclosure is not in the public interest.

Very truly yours,

William O. Miller
