HOPE CREEK GENERATING STATION
DOCKET NO. 50-354

Enclosed is a final, issued copy of the New Jersey Pollutant Discharge Elimination System Permit NJ0025411, issued August 8, 1985, and effective October 1, 1985. We submit it to you in fulfillment of a requirement in Section 1.3 of the Final Environmental Statement (NUREG-1074), December 1984.

As the FES points out, the New Jersey Department of Environmental Protection now addresses Federal Clean Water Act Section 401 requirements within the permit. Accordingly, we believe that PSE&G has obtained all non-NRC approvals necessary for granting the operating license.

Very truly yours,
