In the Matter of  
KERR-MCGEE CHEMICAL CORPORATION  
(West Chicago Rare Earths Facility)  
Docket No. 40-2061 ML, ASLBP No. 83-495-01-ML

Dear Ms. Rapkin:

In your letter to me of May 3, 1985, the People requested that the NRC staff provide copies of certain documents on which the Staff relied as the basis for its responses to the People's second set of interrogatories. As I indicated to you by telephone, two of the requested documents are copyrighted and, therefore, would not be reproduced by the Staff. Those documents are:

1. Brady, N. C. 1974. The Nature and Properties of Soil. 8th Ed. MacMillan Publishing Co., Inc. New York, N.Y., 639 pp.
2. Robert Snow Means Co. 1984. Building Construction Cost Data. Kingston, MA.

I also indicated to you that the Staff would not provide documents generated by other U.S. Government agencies since the People could order them directly from the:

National Technical Information Service  
U.S. Department of Commerce  
Springfield, Virginia 22161.

The only document in this category is:

Gay, W. F. 1979. National Transportation Statistics. DOT-TSC-RSPA-79-19. U.S. Department of Transportation.

Enclosed with this letter are the following NUREG documents, which you requested:

1. Momeni, M. H., et al. 1979. The Uranium Dispersion and Dosimetry (UDAD) Code. NUREG/CR-0553; ANL/ES-72.

2. Stehney, A. F., et al. 1980. Health Status and Body Radioactivity of Former Thorium Workers, Interim Report. NUREG/CR-1420; ANL-80-37.
3. USNRC 1977. Final Environmental Statement on the Transportation of Radioactive Material by Air and Other Modes. NUREG-0170, Vol. 1.
4. USNRC 1980. Final Generic Environmental Impact Statement on Uranium Milling. NUREG-0706. 3 Vols.
5. USNRC 1980. A Methodology for Calculating Residual Radioactivity Levels Following Decommissioning. NUREG-0707.

Please excuse the delay in transmittal of these documents, which resulted from the need to have certain of the documents reproduced from microfiche.

The remaining requested documents were reviewed by the People at Argonne National Laboratory and we have provided to you under cover of Dr. Tsai's letter of July 16, 1985, those documents which you marked for copying.

With this letter, the Staff's response to the People's second set of interrogatories and document request is complete.

Sincerely,

*Stephen H. Lewis*
