PROPOSED AMENDMENT NO. 31 - Revision 1**

Ladies and Gentlemen:

By letter LCV-0811, dated May 15, 1996, Georgia Power Company (GPC) submitted Amendment 31 to the Vogtle Electric Generating Plant (VEGP) Unit 1 and Unit 2 Physical Security and Contingency Plan. Because of additional information requested by NRR Safeguards Branch, GPC resubmits this change in accordance with 10 CFR 50.90 and 10 CFR 50.4 as Revision 1 to Amendment 31 along with its associated significant hazards evaluation. This revision supersedes all previous correspondence and enclosures regarding Amendment 31. By copy of this letter two copies of the proposed Amendment 31- Revision 1 Security Plan changes are also being provided to the NRC Region II office.

This Security Plan amendment proposes to change the tactical response deployment strategy utilized during certain security emergencies.

Enclosure 1 provides a significant hazards evaluation for this change and does not contain safeguards information. Enclosure 2 contains the justification for the changes and Enclosure 3 contains the actual proposed changes to the Security Plan. The information contained in enclosures 2 and 3 is safeguards information and should be withheld from public disclosure in accordance with 10 CFR 73.21.
