TO: JOHN CRAIG

Dear Anna May Haycraft,

Enclosed are some of my comments on the Strategic Assessment and Restaseliving Initiative Stakeholders Meeting that I was able to attend on November 8, 1996 at the Ramada O'Hare Inn.

Since most of the NRC meetings are held in Bethesda, Md., I was pleased that the Public was invited to this meeting in Chicago.

I have also enclosed the National League of Women Voters position on Energy, which explains the Rockford's League's Intervention in the Operating License of the Byron Nuclear Power Plant and the comments I have written and enclosed.

Sincerely,
Betty Johnson

Note: "Energy position paper not enclosed."

COMMENT: the Central Midwest Interstate Low-Level Radioactive Waste Commission made a feiasco of trying to site a LLRW Waste at Madisonville, IL, and as a result in 1993 the Governor of IL and State Legislature has now prohibited community input for picking a new LLRW Waste site.

Public input on health and safety must be allowed and maintained for all activities that involve radiation dangers.
