Attention: Mr. William Karp

Gentlemen:

Reference is made to your letter which contained drawings Nos. A-994145 and B994144, which described your proposed radiography source.

In order to complete our evaluation of the source, we need the following information:

1. What prototype testing has Tracerlab conducted on the source which would demonstrate capsule integrity?
2. Is the source to be used for Cobalt 60 only?
3. Does the label contain the date of measurement of the radioisotopes?

The sealed source should be assigned a model number for identification purposes.

Upon receipt of the above information, we shall continue our evaluation of the source.

Very truly yours,

William J. Miller
