Dear Mr. Subalusky:

This refers to the inspection conducted by Mr. J. Belanger of this office on January 13-17, 1997. The inspection included a review of authorized activities for your LaSalle facility. The focus of this inspection was your Physical Security Program. For the areas inspected, security plan commitments were met and no violations or deviations were identified. Implementation of the portions of the security program inspected appeared to be effective.

Your security management team has taken several actions to improve communications and performance throughout the entire security organization. Although the process is continuing, we observed initial improvements as a result of those efforts.

At the conclusion of the inspection, the findings were discussed with you and those members of your staff identified in the enclosed report. In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC Public Document Room.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,
