Mr. Robert Link  
Vice President, Nuclear Power  
Wisconsin Electric Power Company  
231 West Michigan Street - P379  
Milwaukee, WI 53201

SUBJECT: REVIEW OF POINT BEACH NUCLEAR SECURITY PLAN CHANGE

Dear Mr. Link:

This letter acknowledges receipt of your letter dated September 29, 1995, from Mr. G. J. Maxfield, Plant Manager, Point Beach Nuclear Plant, which transmitted changes to the Physical Security Plan for the Point Beach Nuclear Plant, submitted under the provisions of 10 CFR 50.54(p).

Our review determine that one change appeared to be inconsistent with the criteria of 10 CFR 50.54(p) and in accordance with NRC Generic Letter 95-08, dated October 31, 1995, that change was referred to our Office of Nuclear Reactor Regulation (NRR) for evaluation. We have completed our review and provided the attached evaluation.

Our evaluation concluded that your changes identified in Section 1.1.2 of Chapter 2.1, "Vehicle Barrier Installation" of your security plan lacked sufficient detail for determining whether the changes met the criteria of 10 CFR 50.54(p). These changes may be clarified or submitted pursuant to 10 CFR 50.90. Specific comments are contained in the enclosure to this letter.

Regarding your other changes, based on your determination that the changes do not decrease the overall effectiveness of your security plan and after limited review of the changes, no NRC approval is required, in accordance with 50.54(p). Implementation of these changes will be subject to inspection to confirm that the changes have not decreased the overall effectiveness of your security plan.

The enclosure to your letter contain Safeguards Information of a type specified in 10 CFR 73.21 and will be withheld from public disclosure. In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and enclosure, will be placed in the NRC Public Document Room.

Sincerely,

Original Signed by James R. Creed
