Dear Diane:

This letter is to advise you that regarding the bill received which I have enclosed, I had contact with your office previously advising the following: Roof Technologies Inc. was a business which never got off the ground. There were never any employees, income received, taxes due, and no nuclear gauges ever purchased. Our original intent was to develop the business, but due to expenses, we were not in a position to pursue it. The business has been non-existent since July, 1995. We have no assets, equipment, and never had any type of nuclear equipment. Papers have been sent to dissolve the corporation, as there has never a "business". We also request the license of Roof Technologies, Inc. be removed. Several phone calls with people in your department were made advising them of our status when the original bill was received. We kept getting referred to someone else, until your phone contact. We don't feel the bill enclosed is applicable due to the above conditions. Therefor, per your instructions regarding our phone contact, I have written this letter to your attention.

Thank You,

James Ranta
