SUBJECT: V.C. SUMMER NUCLEAR STATION - INSPECTION OF THE DAM AT THE
SERVICE WATER POND

Dear Mr. Taylor:

As discussed with Ms. April Rice and Mr. Jim Proper of your staff on January 3, 1997, a team consisting of the staff members of the NRC and the Federal Energy Regulatory Commission (FERC) will inspect the dam at the V.C. Summer Nuclear Station service water pond on February 27, 1997. This inspection is a routine function of NRC's Dam Safety Program. The purpose of the inspection is to confirm that the structure conforms with the design documents, and that it is capable of performing its design functions.

The team leader is Mr. Daniel S. Rom of the NRC's Office of Nuclear Material Safety and Safeguards. He will work out logistic details with Ms. April Rice and Mr. Jim Proper. The FERC inspector will accompany Mr. Rom. Mr. Rom can be reached at 301-415-6704.

Sincerely,
