MEMORANDUM

TO THE FILE: Uranerz, Agreement #1
FROM: Glen Garton, Abandoned Drill Site Inspector - District III *GG*
DATE: August 9, 1985
SUBJECT: Phone conversation of August 9, 1985 with Bill Houston of Uranerz

On August 9, 1985, Bill Houston of Uranerz telephoned the Cheyenne Office to discuss the possibility of obtaining bond release on the Charlie Pit drilling. Mr. Houston explained that a crew of two spent one month reclaiming sites and set 500 precast concrete caps in place of wooden 4 x 4's. There was a question regarding the 30-40 cased monitoring wells which were completed by Uranerz but turned over to Cotter when the property was sold. I explained that the casing would have to be cut and capped two feet below the collar of the hole which would be the responsibility of Cotter Corporation.

As soon as a map of Uranerz drilling is received an inspection will be conducted for the possibility of bond release.
