Gentlemen:

Pursuant to Title 10 to Code of Federal Regulations, Part 40, and in accordance with your submittal dated May 24, 1985, Source Material License No. SUA-1441 is hereby amended to modify License Condition No 41 to read as follows:

41. The licensee shall maintain the quality assurance program as described in the report submitted May 24, 1985, for all sampling and analyses performed as part of the in-plant radiation safety, ground-water and environmental monitoring programs that includes all of the recommended elements of quality assurance program specified in USNRC Regulatory Guide 4.15, "Quality Assurance for Radiological Monitoring Programs (Normal Operations) - Effluent Stream and the Environment."

All other license conditions shall remain the same.

The license is being reissued in its entirety to incorporate the revised license condition specified above. The effect of this amendment is to approve the Quality Assurance Program submitted May 24, 1985, and modify License Condition No. 41 accordingly.
