Docket No. 030-33897

License No. 06-30235-01

Richard G. Free, M.D.
Radiation Safety Officer
National Medical Research Corporation
25 Main Street
Hartford, Connecticut 06106

SUBJECT: INSPECTION NO. 030-33897/96-001

Dear Dr. Free:

On September 25, 1996, David Everhart of this office conducted a safety inspection at the above address of activities authorized by the above listed NRC license. The inspection was limited to a review of proposed, initial start-up of licensed activities. The findings of the inspection were discussed with you, at the conclusion of the inspection.

Within the scope of this inspection, no violations were identified.

During the inspection, you stated that there was a possibility that you may terminate this license shortly. You also stated that the Corporation has had a name change including a change of management. If you do not plan on terminating this license immediately, please submit an amendment request to address the following:

- a. Provide the new name of the licensed organization, or state that there is no change;
- b. Provide any planned changes in personnel having control over licensed activities (e.g., officers of the corporation) and any changes in personnel named in the license such as the radiation safety officer, authorized users, or any other persons identified in previous license applications as responsible for radiation safety of use of licensed material;
- c. Provide a complete, clear description of the transaction. The description should include any transfer of stocks or assets, mergers, etc.;
- d. Provide any planned changes in organization, location, facilities, storage or uses of licensed material, equipment or procedures. If such changes are to be made, they should be fully described;
- e. Provide a detailed description of any changes in the use, possession or storage of licensed materials;

- f. Provide confirmation that the transferee or successor company agree to abide by all constraints, conditions, requirements, commitments and representations identified in the existing license. These include, but are not limited to: maintaining decommissioning records required by 10 CFR 30.35(g); implementing decontamination activities and decommissioning of the site; and completing corrective actions for open inspection items and enforcement actions. If not, the transferee must provide a description of its program to assure compliance with the license and regulations; and.
- g. Provide documentation that both the transferor and the transferee agree to the change in ownership or control of the licensed material and activity, and the conditions of transfer, and that the transferee has been made aware of all open inspection items and possible resulting enforcement actions.

Please use the enclosed self-addressed green envelope when you respond to this letter to assist us in the timely processing of your response. In accordance with Section 2.790 of NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and your reply will be placed in the Public Document Room (PDR). To the extent possible, your response should not include any personal privacy, proprietary, or safeguards information so that it can be placed in the PDR without redaction. However, if you find it necessary to include such information, you should clearly indicate the specific information that your desire not to be placed in the PDR, and provide the legal basis to support your request for withholding the information from the public. The responses directed by this letter are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.

Your cooperation with us is appreciated.

Sincerely,
