TMI Program Office  
Attn: Dr. B. J. Snyder  
Program Director  
US Nuclear Regulatory Commission  
Washington, DC 20555

Dear Dr. Snyder:

Three Mile Island Nuclear Station, Unit 2 (TMI-2)  
Operating License No. DPR-73  
Docket No. 50-320  
Containment Air Control Envelope  
Technical Evaluation Report, Revision 5

Recently forwarded via GPU Nuclear letter 4410-85-L-0126, dated June 12, 1985, was Revision 4 to the Containment Air Control Envelope (CACE) Technical Evaluation Report (TER). Subsequent conversations with members of your staff indicated that the intent of the revision to Section 3.3.1 was not clear. Therefore, Revision 5 is submitted for clarification. Revision 5 clarifies the method of operation when the CACE rollup door is open; it makes no changes to the intent of the previous revision. The clarification of Revision 4 provided herein does not constitute a jeopardy to the health and safety of the public.

Sincerely,

F. R. Standerfer  
Vice President/Director, TMI-2
