Washington, D.C. 20472

AUG 29 1985

MEMORANDUM FOR: Edward L. Jordan  
Director, Division of Emergency Preparedness  
and Engineering Response  
Office of Inspection and Enforcement  
U.S. Nuclear Regulatory Commission

FROM: *Richard W. Krimm*  
Richard W. Krimm  
Assistant Associate Director  
Office of Natural and Technological  
Hazards Programs

SUBJECT: Exercise Report of the October 12, 1984, Exercise of the  
Offsite Radiological Emergency Preparedness Plans for the  
Millstone Nuclear Power Station

Attached is a copy of the Exercise Report of the October 12, 1984, joint exercise of the offsite radiological emergency preparedness plans for the Millstone Nuclear Power Station. This exercise was full participation for the State of Connecticut and 11 localities. The report, dated December 7, 1984, was prepared by Region I of the Federal Emergency Management Agency (FEMA).

Although there were Category B deficiencies observed at the exercise, they did not seriously detract from the overall demonstrated capability to protect the health and safety of the public. The State is preparing a schedule of corrective actions. As soon as it is received, we will send you a copy. However, since there were no identified impediments to protecting the public during the exercise, the approval under 44 CFR 350 will remain in effect.

If you have any questions, please contact Mr. Robert S. Wilkerson, Chief, Technological Hazards Division, at 646-2861.
