Gentlemen:

We have received your license expiration notice LR:IB:37 concerning license 34-6558-2. This license was terminated on August 24, 1962, and all procured material consolidated on our license 34-6558-1. (Termination notice enclosed)

I assume, therefore, that we have no more requirements on our license 34-6558-2, and that the renewal notice should be ignored. It would be greatly appreciated if you would confirm this assumption.

Very truly yours,

*Charles T. Schmidt*
