Gentlemen:

This refers to the inspection conducted by Messrs. H. D. Chaney and D. B. Spitzberg of this office during the period July 15-19, 1985, of the activities authorized by NRC Operating License NPF-32 for the Wolf Creek Generating Station, and to the discussion of our findings with you, and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included certain aspects of your radiation protection program and the conducting of the reactor shielding radiation surveys during power ascension testings.

Within the scope of the inspection, no violations or deviations were identified.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,
