Reference: License # 47-15717-03 ... HDR brachytherapy

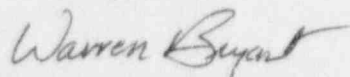

For your records,

In our recent license renewal, we indicated that we would purchase either a Nucletron or a GammaMed HDR unit. Dr. Whaley has informed me that an order for the Nucletron unit has been placed.

We will proceed with clinical use of the equipment in accordance with our license conditions, probably within 30 - 45 days after installation.

If you need additional information, let me know.

Sincerely,

Warren Bryant, RSO
