UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

JUL 02 1985

Mr. Jack Klinknett
Attorney at Law
945 Connecticut Street
Lawrence, KS 66044

IN RESPONSE REFER
TO FOIA-85-84

Dear Mr. Klinknett:

This is in response to your letter dated January 29, 1985, in which you requested, pursuant to the Freedom of Information Act (FOIA), all records in the following three categories:

- 1) Docket 40-8006 (License SUB-986) January 1963 or earlier through June 1976 regarding the Oklahoma City Technical Center, Oklahoma,
- 2) Docket 40-2061 (License STA-583) January 1968 through December 1973, regarding the Rare Earths Facility, West Chicago, Illinois, and
- 3) Docket 40, (License R-157 and subsequent licenses) September 1954 through December 1974, re: The Shiprock Uranium Mill, San Juan County, New Mexico.

With regard to Category one, the documents listed on the enclosed Appendix are enclosed. You will be billed separately by our Division of Accounting and Finance in the amount of \$6.70.

With regard to Category two, as discussed in your telephone conversation with Linda Robinson and Nina Toms, certain documents relating to the West Chicago Rare Earth's Facility have been addressed under an earlier FOIA request (FOIA-85-30, copy enclosed) from Ms. Anne Rapkin of the State of Illinois. Other FOIA requests and disclosed records relating to the Rare Earth's facility are on file at the NRC's Public Document Room (PDR), 1717 H Street, NW, Washington, DC 20555. These requests are as follows: FOIA-82-255 through FOIA-82-258 and FOIA-82-362. Copies of the requests and NRC's responses to these FOIA requests are enclosed.

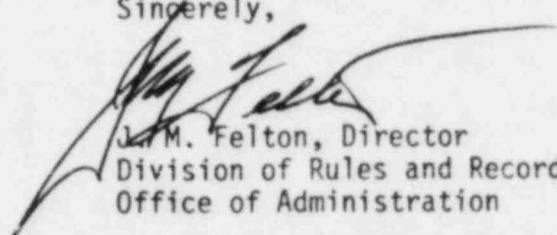

As Ms. Robinson explained to you, the charge for copying records maintained at the PDR is five (\$0.05) per page, as specified in 10 CFR 9.14(a). We have enclosed a copy of a notice that provides the procedures for obtaining records from the PDR should you wish to order any of the above referenced records.

Also, during this telephone conversation, Ms. Robinson suggested we could provide to you a computer printout listing additional records relating to category two. After checking with staff, we were informed that records prior to 1978 are not shown on computer listings. Consequently, we have enclosed two separate listings of very early records relating to this category. The records on the PDR list may be obtained by contacting the PDR directly. The second list identifies records which are maintained in the files of the Office of Nuclear Material Safety and Safeguards. After you have reviewed this list, should you wish copies of these records, please telephone Ms. Toms by July 26, 1985, at (301) 492-8993 to discuss which records you wish to obtain.

In regard to category three, New Mexico became an Agreement State on May 1, 1974. Consequently, NRC files were transferred to New Mexico at that time. We have enclosed a copy of the list of Agreement States. To obtain records sought under category three, it would be necessary for you to write directly to the State of New Mexico. The list identifies the individual to be contacted, telephone number, and complete address.

We wish to take this opportunity to thank you for the necessary extension of time needed to respond to your request.

Sincerely,

J. M. Felton, Director
Division of Rules and Records
Office of Administration

Enclosures: As stated
