

August 9, 1995

Dear Mr. Thompson,

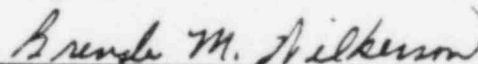

Because of the improper management of Texas Utilities Electric Company toward the construction of Comanche Peak nuclear power plant at Glen Rose Texas and the questionable safety of that construction, we request that you refuse to allow this plant to operate.

Comanche Peak should be abandoned for the sake of public safety. The lost money we will bear for the negligence of Texas Utilities is preferable to the alternative of a nuclear disaster.

Thank you,

Gary L. Wilkerson

Brenda M. Wilkerson
