### Haddam Neck Plant Quality Assurance Program

In a letter dated December 5, 1996,<sup>(1)</sup> the Connecticut Yankee Atomic Power Company (CYAPCO) informed the NRC that the Board of Directors of CYAPCO had decided to permanently cease operations at the Haddam Neck Plant (HNP) and that the fuel had been permanently removed from the reactor. As a result, CYAPCO is reviewing its programs with the intent of making revisions to reflect the current plant status. To assist in transitioning the Quality Assurance Program from a normally operating power facility to a defueled plant undergoing decontamination and decommissioning, CYAPCO will first adopt, in its entirety, the current approved Northeast Utilities (NU) Quality Assurance Program Topical Report, Revision 18, dated August 15, 1995, as the "Quality Assurance Program for the Haddam Neck Plant," Revision 0.

This action is purely administrative. All regulatory commitments in the NU Topical Report will remain as is. This administrative action will allow CYAPCO to make necessary changes unencumbered by activities and revisions focused on the operational needs of the Millstone Station. A page will be added in the beginning of Revision 0 that indicates this revision applies only to CYAPCO and that Revision 1 will remove any references to the Millstone Station, define the new organizational structure at the Haddam Neck Plant, and address any other needed revisions. Revision 1 will be submitted to the NRC by July 1, 1997.

(1) T. C. Feigenbaum letter to the U. S. Nuclear Regulatory Commission, "Certifications Of Permanent Cessation Of Power Operation And That Fuel Has Been Permanently Removed From The Reactor," dated December 5, 1996.

Similarly, Revision 19 to the Northeast Utilities Quality Assurance Program Topical Report will delete appropriate references to the Haddam Neck Plant, define the organizational structure at the Millstone Station, and address any other needed revisions. Revision 19 is scheduled to be submitted to the NRC by July 1, 1997.

If you should have any questions, please contact Mr. G. P. van Noordennen at (860) 267-3938.

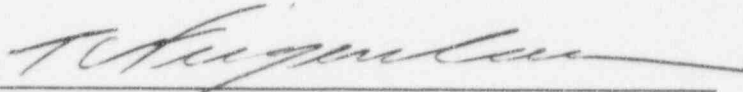

Very truly yours,

CONNECTICUT YANKEE ATOMIC POWER COMPANY
