Generating Station Affecting the Physical Security Plan

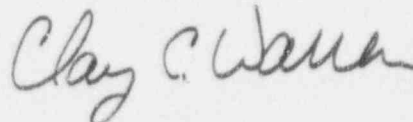

Gentlemen:

This letter provides information in accordance with 10 CFR 50.54(p)(2) concerning a change at Wolf Creek Generating Station (WCGS) affecting the Physical Security Plan. This change incorporates a commitment to NUMARC 91-01, "Nuclear Power Plant Personnel Data Exchange Guidelines," which was inadvertently deleted by Revision 28 of the Physical Security Plan. This change does not decrease the effectiveness of the Physical Security Plan.

The Attachment describes the change and provides justification. The change described in the Attachment will be incorporated into the WCGS Physical Security Plan at the next revision.

If you have any questions concerning this matter, please contact me at (316) 364-8831, extension 4485 or Mr. Terry S Morrill at extension 8707.

Very truly yours,

Clay C. Warren

Change

Pages Affected: Physical Security Plan: 1 - 8.

Reason for Change: This is an administrative change to reinsert the commitment to NUMARC 91-03 guidance. This commitment was inadvertently deleted in Revision 28.

Justification: This change is administrative in nature to correct a typographical error in the Revision 28 submittal.

In Revision 27, the following sentence was modified in paragraph 1.3.1(a): "The screening process is in accordance with Regulatory Guide 5.66 (June, 1991) and NUMARC 91-03 as approved by NRC staff." Upon reviewing the Revision 27 submittal, the NRC responded that the phrase, "as approved by NRC staff", was inappropriate.

In Revision 28, Change 3 was submitted to remove the phrase, "as approved by NRC staff", from the text. During editing, the words, "and NUMARC 91-03" were inadvertently deleted as well.

This change reinserts the words, "and NUMARC 91-03" in paragraph 1.3.1(a). These words were previously approved by the NRC in Revision 27 of the WCGS Physical Security Plan.
