Kerr-McGee Chemical Corporation  
ATTN: Mr. O. L. Daigle  
Plant Manager  
258 Ann Street  
West Chicago, Illinois 60185

Gentlemen:

We have learned from our Division of Regulatory Operations that consideration is being given to terminating operations at your plant. Since there is a possibility of concurrent licensing action we would appreciate your advising us of your plans under License No. STA-583 with respect to disposition of the facility and source material.

This matter was discussed briefly during a recent telephone conversation with Mr. W. J. Shelley, Kerr-McGee Nuclear Division, Oklahoma City. At his request, we are providing him with a copy of this letter.

Sincerely,

Original Signed by
