# THE HARSHAW CHEMICAL COMPANY

1945 EAST 87TH STREET  
CLEVELAND 6, OHIO  
RANDOLPH 1-8300

June 27, 1961

Division of Licensing  
Atomic Energy Commission  
Washington 25, D.C.

Attention: Mr. J.C. Delaney

Gentlemen:

We wish to purchase one microcurie of americium 241 (open alpha source) and one microcurie of curium 244 (open alpha source) from Oak Ridge Laboratory. Is it necessary for us to obtain a license for this, if so please send us the necessary forms. This material will be used to calibrate radiation detectors. We will not directly handle the sources. Metal plates and plastic guards will be sent to Oak Ridge, they will plate them and mount them in the plastic guards before returning them to The Harshaw Chemical Company. For monitoring this material we have radiation detectors. We will appreciate receiving a prompt answer so that we may place our order with Oak Ridge. Thank you for your attention to this matter.

Very truly yours,

THE HARSHAW CHEMICAL COMPANY
