Dear Mr. Denton:

Reference (e) supplemented previous responses to Generic Letter 83-28 in regard to Item 1.2, Post Trip Review - Data and Information capability. Questions 4 under Item 1.2 requested a schedule for any planned changes to existing data and information capability. The purpose of this letter is to update the schedule for installing a high speed data link between the Process and Prime computers. It is now anticipated that the new link will be installed during the third quarter of 1987.

Fifteen copies of this letter are enclosed for your use. Please address any questions that you or your staff may have concerning our response to Generic Letter No. 83-28 to this office.

Respectfully,

G. L. Alexander
Nuclear Licensing Administrator
