Subject: ARCO Records for DOE Permanent Site File

Dear Mr. Holonich:

The DOE has reviewed the information received to date from ARCO concerning all aspects of the reclamation of the Bluewater site, and other miscellaneous information used in developing the Long-Term Surveillance Plan. The DOE concludes that it now has sufficient record material for a permanent site file that will adequately support the execution of long-term custodial activities, in accordance with the requirements of 10 CFR § 40.28.

Therefore, the DOE does not anticipate asking ARCO for any additional documentation in this matter, with the exception of the final property title transfer documentation. It is understood that the title transfer documentation is currently being prepared and will be completed, as required, at the time the site is transferred to the DOE.

If the NRC has any questions or requires further information, please contact me at (970) 248-6006.

Sincerely,

Joseph E. Virgona  
Project Manager
