Conference Summary

Conference held on August 5, 1985 (Report: 030-13079/85-02)

An Enforcement Conference was held by telephone to discuss the findings of the NRC inspection conducted on June 26, 1985. The violations and issues of concern were detailed by the Region IV staff and the licensee responded to each item.

Results: The NRC presented 5 violations of NRC requirements and expressed concern regarding the management control of the licensed program. The licensee representatives responded relative to their understanding of the violations and presented no information that would allow deletion or modification of the violations. The licensee described the actions taken or planned to bring the licensed program into full compliance with NRC requirements and the planned management controls that would be implemented to ensure full compliance in the future. The NRC staff emphasized the enforcement options available. The NRC staff stated that a decision would be made as to the appropriate enforcement action and that the licensee would then be notified.

Persons Participating in the ConferenceA. NRC

R. L. Bangart, Director, Division of Radiation Safety and Safeguards
R. E. Hall, Chief, Radiological and Safeguards Programs Branch
R. J. Everett, Chief, Nuclear Materials Safety Section
