

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

LICENSEE: Sequoyah Fuels Corporation
INSTALLATIONS: Sequoyah Facility
I-40 and Highway 10
Gore, OK 74435
SUBJECT: CATEGORICAL EXCLUSION FOR AMENDMENT UNDER THE PROVISION
OF 10 CFR 51.22(c)(11) REQUEST DATED NOVEMBER 18, 1995

By letter dated November 18, 1996, Sequoyah Fuels Corporation (SFC) requested an amendment to License SUB-1010 to authorize removal of the special process commitments in Chapter 6. This reflects the change from an operational facility to one constrained to limited decommissioning activities and site access control. The deletion of these conditions will not: (i) result in a change in the types nor amounts of any effluent that may be released off site; (ii) result in an increase in individual or cumulative occupational exposure; (iii) result in any construction impact; and (iv) result in any potential for or consequences from radiological accidents. Therefore, the staff concludes that these changes will not adversely affect the public health and safety nor the environment. Accordingly, pursuant to 10 CFR 51.22(c)(11), neither an Environmental Impact Statement nor an Environmental Assessment is warranted for the proposed action.

FOR THE NUCLEAR REGULATORY COMMISSION

John W. N. Hickey, Chief
Low-Level Waste and Decommissioning
Projects Branch
Division of Waste Management
Office of Nuclear Material Safety
and Safeguards

Docket No.: 040-08027
License No.: SUB-1010
