

February 12th, 1997

TO: Mr. Robert A. Capra
Office of Reactor Regulation
N.R.C.
Washington, D.C. 20555-0001

FROM: Mr. David Stowell
740 South Federal #504
Chicago, Illinois
IL 60605

Dear Mr. Capra,

This letter is to thank you for your response to my
letter to Chairman Jackson dated January 2, '97.

I felt good that you took the time to respond to my
concern about the safety of Commonwealth Edison's
reactors in my region. I hope that with public
awareness rising concerning safety issues **combined**
with an intelligent and vigilant agency, citizens
can have some assurance that another Three-Mile Island
or Chernobyl will not occur.

Your letter, which I read carefully, was helpful in
building my personal understanding of the role of the
N.R.C. in the oversight of Public Utilities.

Thank you for your reply.

With All Best Wishes,

David Stowell
