SUBJECT: ENFORCEMENT CONFERENCE (NRC OI INVESTIGATION 1-93-021R)

Dear Mr. Reiter:

On February 8, 1995, the NRC conducted an enforcement conference with you in the Region I office in King of Prussia, Pennsylvania, to discuss the circumstances associated with your possible harassment and intimidation (H&I) of a former SRG engineer in your organization when you were the General Manager - Quality Assurance and Nuclear Safety Review. The conference was based on the finding of an NRC investigation by the Office of Investigations (OI) which concluded that you may have contributed to the H&I of the individual in support of other managers. A copy of the OI synopsis of the investigation was forwarded to you on January 11, 1995.

At the enforcement conference, you denied that you harassed or intimidated any of the individuals involved. After further evaluation of this matter by the NRC, we find that there is no basis to conclude that you took any action in support of other managers relative to removing the individuals from involvement in Salem activities, nor did you create or actively contribute to a hostile environment or engage in H&I with regard to these individuals. Consequently, the NRC has determined that no enforcement action is warranted on this matter with regard to your actions.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter will be placed in the NRC Public Document Room with your address deleted. A copy of this letter is also being provided to the President and Chief Executive Officer of PSE&G.

Sincerely,

Thomas T. Martin
Regional Administrator

Mr. Lawrence Reiter
