1945 EAST 87TH STREET  
CLEVELAND 6, OHIO  
RANDOLPH 1-8300

October 2, 1959

Mr. Joseph C. Delaney  
Chief, Nuclear Materials Section  
Licensing Division  
Atomic Energy Commission  
Washington 25, D. C.

DOCKET NO. 40-2589

Dear Mr. Delaney:

It is now a matter of some weeks since the samples of uranium-containing building materials were sent to your New York Operations office for radiation measurement. Our future course of action with respect to the sale of depleted uranium compounds will be directly affected by your decision as to whether or not you are to allow licenses for the use of uranium in those products. We are, therefore, very interested in hearing of your decision as early as possible.

The expenditure of considerable time and effort and money hinges on the loosening of the licensing procedure, and we are eager to cooperate in any way required to help you reach the proper decision. If you have questions concerning details of the manufacture or the use of the products under test, I would be most willing to visit your offices again and help in any way I can to answer your questions.

We look forward to hearing from you at your convenience.

Very truly yours,

THE HARSHAW CHEMICAL COMPANY
