January 31, 1997

Sue Johnson-Phillippe

10 CFR 35.21 (b) (3) carries with it the requirement that you as holder of U.S. Nuclear Regulatory Commission license # 21-26716-01, be briefed at annual intervals by me as the Radiation Safety Officer on the status of the Radiation Safety Program at your facility. The following report covers the time period from August 1996 through December 1996.

By personal inspection, consultation with and review of reports generated by members of Medical Physics Consultants, Inc. following their visits, and the issuance over my signature of appropriate directives to staff members providing Nuclear Medical Technical and Ancillary Support Services, you can be assured that radiation safety activities are being performed in accordance with approved procedures and regulatory requirements in the daily operation of the radioactive materials program. The scope of this review contains all the items described in 10 CFR 35.21 (b) effective April 1, 1987.

In order to complete my files as directed in 10 CFR 35.21 (b) (2) (xi), it is requested you acknowledge receipt of this briefing by signing the attached copy and returning it to my attention.

Thank you for your cooperation in this matter.

Sincerely,

RECEIPT ACKNOWLEDGED

*Leonard A. Brunette M.D.*  
Leonard Brunette, M.D.  
Radiation Safety Officer
