

February 26, 1997

Mr. Timothy Goodbred
Business Unit Manager
Eaton Corporation
9 South Street
Danbury, CT 06810

SUBJECT: REVIEW OF INFORMATION REGARDING 10 CFR PART 50 APPENDIX B CONTROLS
ON SUPPLIED EQUIPMENT

Dear Mr. Goodbred:

The Nuclear Regulatory Commission (NRC) staff has completed the review of the documentation provided with your September 24, 1996, letter to the NRC. Your letter addressed the questions included in the August 29, 1996, NRC letter to Eaton Corporation, concerning fuses installed in the Eaton supplied SA panels of the Main Steam and Feedwater Isolation System at Union Electric Callaway Nuclear Plant.

Thank you for providing the documentation and also for the assistance offered by your staff. The information that you provided has increased our understanding of the issue and we do not anticipate that any further correspondence will be necessary.

Sincerely,

Original signed by

Gregory C. Cwalina, Chief
Vendor Inspection Section
Special Inspection Branch
Division of Inspection and
Support Programs
Office of Nuclear Reactor Regulation
