July 18, 1985

Docket No. 50-352

Director
Office of Resource Management
US Nuclear Regulatory Commission
Washington, DC 20555

SUBJECT: Limerick Generating Station
Monthly Operating Report

Gentlemen:

Enclosed is the monthly operating report for Limerick Unit 1 for the month of June, 1985 forwarded pursuant to Technical Specification 6.9.1.6.

The submittal of this month's report is delayed as a result of the time required to provide accurate year-to-date and cumulative values for the operating data report page.

Additionally, you will find enclosed revised data sheets for the months of April, 1985 and May, 1985 correcting previously submitted information. The corrected data is indicated by a bar in the margin.

We regret any inconveniences the delay may have caused.

Very truly yours,

R. H. Logue
Superintendent
