SUBJECT: NRC INSPECTION

Dear Mr. Venters:

This refers to the inspection conducted on January 28, 1997, with continued in-office review through February 14, 1997, at your Canton, Ohio facility. The purpose of the inspection was to determine whether activities authorized by the license were conducted safely and in accordance with NRC requirements. At the conclusion of the site inspection, the preliminary findings were discussed with Mr. Reno of your staff. This also refers to the telephone conversations between Mr. Slawinski of my staff and you on February 13, 1997, and with Mr. Reno on February 11 and 14, 1997, at which time additional information was obtained and the inspection concluded.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel and independent measurements.

No cited violations of NRC requirements were identified during the course of this inspection.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter will be placed in the NRC Public Document Room.

Sincerely,

Original Signed by Roy J. Cahiano
