Re: Grand River Cardiology, P.C.  
License No. 21-26764-01

Dear Mr. Webber,

This letter is to clarify the address of use of radioactive materials on our recent license application.

The facility diagram we submitted is correct but the area was incorrectly labeled as Suite 215 which is the suite of our general office. The Nuclear Medicine room and treadmill room are actually located in suite 200 which is across the corridor from 215. Radioactive materials were never used or possessed in suite 215.

Please be aware that the mailing address should remain as suite 215.

Thank you for your assistance in this matter. Please contact me if you have any questions.

Sincerely,

*Stan A. Mills*
