30-May-95

ENGELHARD CORPORATION  
CHEMICAL CATALYSTS GROUP  
120 PINE STREET  
P.O. BOX 4017  
ELYRIA, OHIO 44036-2017  
(216) 322-3741

Mr. William Snell  
United States Nuclear Regulatory Commission  
801 Warrenville Road  
Lisle, IL 60532

Dear Mr. Snell:

Re: Engelhard Corporation  
Harvard-Denison  
Area Surrounding Building G-1

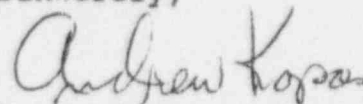

Pursuant to your letter of 21-Feb-95 the Engelhard Corporation submits the following documents in duplicate relative to the decontamination of the pavement and soils surrounding Building G-1:

- Site Characterization Plan.
- Health and Safety Plan.
- Radiological Control Plan.
- Responses to Region III's comments.
- A letter from Dr. L. Max Scott which reports analytical results from samples collected in and around Building G-1.

We hope with this submittal we meet all the Agency's requirements and look forward to meeting with you in mid-June, 1995 to address any of your concerns.

Please contact me at (216) 329-2553 to arrange for our meeting at Harvard-Denison.

Sincerely,

A. G. Kopas, Manager  
Environmental Services
