Campbell & Paris Engineers
ATTN: Ms. Jennifer Harms
Director of Business Development
14500 Avion Parkway, Suite 175
Chantilly, VA 22021

Dear Ms. Harms:

I am responding to your May 30, 1996, letter concerning the annual fees assessed for License 45-24874-01, and a change of ownership from Campbell & Paris Engineers to Dan and Graham Leasing, Inc.

You provided the following information regarding the status of License 45-24874-01: 1) on September 29, 1992, Campbell & Paris Engineers sold the Troxler Model 3400 series portable moisture/density gauge to Dan and Graham Leasing, Inc; 2) on October 9, 1992, you requested that License 45-24874-01 be amended to reflect the new owner and that you be sent any necessary papers for the new license; 3) on October 29, 1992, you received the new license application packet and a letter from Earl G. Wright stating that, "at the time the new license is issued, we will then terminate License No. 45-24874-01;" 4) new License 45-25297-01 was issued on May 16, 1994; 5) on August 30, 1995, Mr. H. D. Campbell received a fax from Mr. Wright regarding the request for transfer or termination of your license; 6) the item was signed and returned on August 31, 1995; and 7) you received the termination certificate for License 45-24874-01 dated October 31, 1995.

You also provided the following information concerning the annual fees that have been assessed for License 45-24874-01: 1) when you received a November 4, 1994, letter from NRC stating that you were delinquent in fees for FY 1993, you contacted several NRC employees concerning this matter; 2) you faxed a copy of your termination request to NRC on November 29, 1994, along with Dan and Graham Leasing's Certifications of Small Entity Status for FY 1992, FY 1993, and FY 1994; 3) Dan and Graham Leasing sent a check for the license fees and once there was no further contact from the NRC you believed the matter to be closed and resolved; 4) in May 1996, Mr. Campbell received a call from the U.S. Department of the Treasury requesting payment of delinquent fees owed by Campbell & Paris Engineers for FY 1993 and FY 1995; 5) you have been working with the U.S. Department of the Treasury and staff at NRC to rectify this situation; 6) you received a fax of an NRC "Note to File" indicating that Mr. Campbell had received forms to fill out to terminate the license but refused to do so, which Mr. Campbell denies was the case.

Since Campbell & Paris Engineers was the holder of License 45-24874-01 until the license to Dan and Graham Leasing was issued on May 16, 1994, Campbell & Paris is responsible for annual fees assessed prior to May 16, 1994. Therefore, Invoice AM3205-93 is due and payable to the U.S. Department of the Treasury. The NRC Form 526, Certification of

Small Entity, has been received, approved, and the fee reduced accordingly. If the \$400 payment is received within 30 days from the date of this letter, late charges will be waived; however, the \$72.00 collection fee for Treasury cannot be waived. If payment of \$472 is not received within 30 days, all late charges will be assessed.

Based on the information provided, the NRC grants an extension of time to file for termination to October 19, 1995, for purposes of avoiding the FY 1995 and FY 1996 annual fees for Invoices AM2506-95 and AM4607-96; and acknowledges that your need for an NRC license ceased when Dan and Graham's license was issued May 16, 1994.

Invoices AM2506-95 and AM4607-96 have been cancelled. We apologize for the time it has taken to get back to you. If you have any questions concerning this matter, please call Sandra Kimberley at 301-415-6096.

Sincerely,

Original signed by
James M. Taylor
