801 Warrenville Road  
Lisle IL 60532-4351

Subject: Engelhard Corporation Radiological Control Plan and Baghouse and Conveyor Workplan

Dear Mr. Snell:

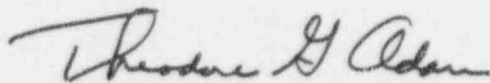

In response to the NRC request (letter J.W. McCormick-Barger, NRC Region III to R.W. Potter, Chevron Chemical Company dated July 3, 1996), enclosed are copies of the Engelhard Radiological Control Plan (RCP) and the Workplan for the removal of the baghouse and conveyor. These documents are being provided on behalf of Mr. R. William Potter, Senior Environmental Project Engineer, Chevron Chemical Company.

The RCP and the workplan have been developed by B. Koh and Associates, Inc. (B. Koh) Engelhard Corporation's radiological remediation consultant. These documents have been approved by both the Chevron Chemical Company and the Engelhard Corporation cognizant Project Managers. The removal of the baghouse and conveyor will be performed by B. Koh remediation and radiological control personnel.

The Engelhard Corporation is interested in removing the baghouse and related conveyor system yet this fall. In light of this schedule your timely review of the RCP and workplan is requested.

If you have any questions regarding the RCP or the Workplan please feel free to call me at (716) 592-3431.

Sincerely,

Theodore G. Adams  
Technical Manager  
B. Koh and Associates, Inc.
