Washington, DC 20555

Dear Sirs,

I worked at the Nevada Test Site (Nuclear Rocket Development Station) for Westinghouse from September 1965 to January 1966.

During that time I was exposed to radiation from the environment and from Nuclear rockets which were tested. I wore a "Badge" which monitored my exposure while I was active on this program. I would like a record of the total radiation I was exposed to during my short employment at the site.

I am requesting this information under the Freedom of Information/Privacy Act.

Thank You,

Frank A. Campi
