SUBMITTAL DATE FOR SEMI-ANNUAL REPORT

The Sacramento Municipal Utility District requests an extension of the due date for submittal of the Semi-Annual Radioactive Effluent Release Report. The present due date is August 30, 1985. We request a 30 day extension to September 29, 1985.

This extension is requested because of a delay we have experienced with our vendor in receiving the sampling analysis results report that is a significant portion of the Semi-Annual Report. The rough draft of the analysis report was received from the vendor during the week of August 12, 1985, and is scheduled to be reviewed and returned with comments to the vendor by August 24, 1985. The final copy of the sampling analysis results report is not expected to be received from the vendor until September 12, 1985.

If you have any questions regarding this matter, please contact Mr. Ron Colombo at the Rancho Seco Nuclear Generating Station.
