Oakridge Institute of Nuclear Studies
Oakridge, Tennessee

Dear Sirs;

We have recently completed a new science building in which there is a radio activity room. This room contains a new and supposedly properly designed hood necessary for utilizing short life radio active Isotopes.

I understand that it is necessary to have this hood inspected by some of your people before we can purchase Isotopes. We would like to have such an inspection as early as you can arrange it and we would like to have information of any other required obligations before we attempt to purchase Isotopes.

Sincerely yours,

L. L. Woods, Head
Department of Chemistry,
Chairman Division Natural
& Physical Sciences

cc-President S. M. Nabrit

Dear Dr. Woods:

Your letter of February 3 has been forwarded to Mr. Cecil Buchanan of the United States Atomic Energy Commission. The licensing of an institution for the use of by-product materials is the responsibility of the United States Atomic Energy Commission and not the Oak Ridge Institute of Nuclear Studies. I am sure you will hear from Mr. Buchanan within the near future.

We are glad to be of this service.

Sincerely yours,
