

HOWMET TURBINE COMPONENTS CORPORATION

ONE MISCO DRIVE, WHITEHALL, MICHIGAN 49461-1799

July 19, 1985

Ms. Glenda Jackson
United States Nuclear Regulatory Commission
License Fee Management Branch
Office of Administration
Washington, D.C. 20555

Dear Ms. Jackson:

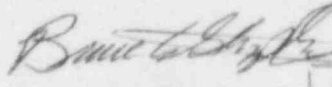

This is in regard to your letter of April 4, 1985, concerning an amendment fee of \$60 which is necessary for the amendment of Howmet Turbine Components Corporation's Material License No. 21-21268-01.

Please change the Radiation Protection Officer from Ken Ellison who left Howmet on January 18, 1985, to myself, Bruce C. Shepherd, since I have assumed the responsibilities of Safety Director as well as Radiation Protection Officer. I have recently been trained in the operation of our two (2) Kevex machines.

Enclosed is a check for \$60 which will cover the cost of this amendment. The control number for this amendment is 18556. Please advise if any procedures contained in this letter are not satisfactory. Any replies should be sent to myself at the above captioned address.

Very truly yours,

HOWMET TURBINE COMPONENTS CORPORATION

Bruce C. Shepherd
Safety Director
