Docket No. 50-298

Mr. J. M. Pilant, Technical
Staff Manager
Nuclear Power Group
Nebraska Public Power District
Post Office Box 499
Columbus, Nebraska 68601

Dear Mr. Pilant:

SUBJECT: DETAILED CONTROL ROOM DESIGN REVIEW (DCRDR) -
EVALUATION OF SUMMARY REPORT

Re: Cooper Nuclear Station

In accordance with the requirements of Supplement 1 to NUREG-0737, Nebraska Public Power District (NPPD) submitted a Summary Report of the DCRDR program at Cooper Nuclear Station by letter dated February 4, 1985. Subsequent to this submittal, the NRC by letter dated March 20, 1985 provided the results of an in-progress DCRDR program audit conducted by the NRC staff and contractor personnel (Lawrence Livermore National Laboratory) at Cooper on November 27-29, 1984. Anticipating receipt of comments from the in-progress audit, NPPD, in a February 4, 1985 letter, committed to provide a Supplemental Summary Report to address NRC comments. In a letter dated April 30, 1985 you stated that the Supplemental Summary Report would be submitted by February 28, 1986.

We have completed our interim review of your February 4, 1985 Summary Report. The results of our review are provided in the enclosed status report and the accompanying Technical Evaluation Report (TER) provided by our contractor. The NRC staff agrees with the technical positions and conclusions provided in the TER. A number of concerns were identified during the audit and in the subsequent review of your Summary Report and are discussed in the enclosures. You are requested to address these concerns and the associated recommendations for satisfying the requirements of Supplement 1 to NUREG-0737 in your Supplemental Summary Report. It is

Mr. J. M. Pilant

- 2 -

expected that consideration of these concerns will not delay submittal of the Supplemental Report by February 28, 1986.

Sincerely,

Original signed by/

Domenic B. Vassallo, Chief
Operating Reactors Branch #2
Division of Licensing
