Re: NRC Radioactive License #13-10408-01

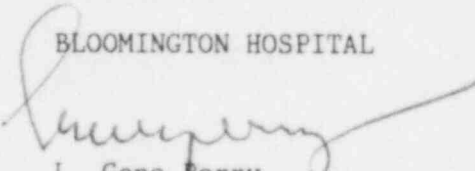

Gentlemen:

We request authorization to extend our Cobalt-60 teletherapy license (NRC License #13-10408-01) for 120 days.

We are currently in the process of evaluating firms authorized to dispose of the teletherapy unit, since the unit contains depleted uranium.

Sincerely,

BLOOMINGTON HOSPITAL

  
L. Gene Perry  
Vice President - Professional Services
