Mail Control # 76054

Mr. Reichhold:

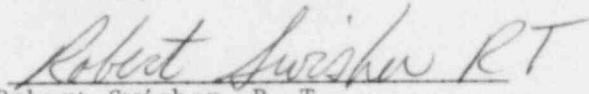

This letter is in correspondence to our phone conversation of last week.

1. Only occupational personnel such as Radiologic Technologist will perform or assist procedures. Each individual will be monitored with proper film badges.
2. No Radioactive Material will be stored in refrigerator or disposed of by sink. All material will be stored until decayed and then incinerated.
3. As radioactive material is received it is assayed and checked for Molybdenum levels.

Please feel free to contact me if you have any further questions.

Thank you for your cooperation.

Sincerely,

Robert Swisher, R. T.
