SUBJECT: ROUTINE INSPECTION NO. 030-05271/97-001

Dear Mr. Jackson:

On January 27, and February 13, 1997, Mr. R. H. Ladun of this office conducted a routine safety inspection at the above address of activities authorized by the above listed NRC license. The inspection was an examination of your licensed activities as they relate to radiation safety and to compliance with the Commission's regulations and the license conditions. The inspection consisted of observations by the inspector, interviews with personnel, and a selective examination of representative records. The findings of the inspection were discussed with Mr. R. W. Peyton of your staff, at the conclusion of the inspection. This also refers to a telephone conversation between Mr. Peyton and Mr. Ladun on February 10, 1997, regarding a request for additional information.

Based on the results of this inspection, it appears that your activities were not conducted in full compliance with NRC requirements. A Notice of Violation is enclosed and categorizes each violation by severity level in accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," (Enforcement Policy), NUREG 1600. You are required to respond to this letter and should follow the instructions specified in the enclosed Notice when preparing your response. In your response, you should document the specific actions taken and any additional actions you plan to prevent recurrence. Your response may reference or include previous docketed correspondence, if the correspondence adequately addresses the required response. After reviewing your response to this Notice, including your proposed corrective actions and the results of future inspections, the NRC will determine whether further NRC enforcement action is necessary to ensure compliance with NRC regulatory requirements.

In your response to this letter, please explain your decision not to notify the NRC in accordance with 10 CFR 30.5(b)(2)(i) of a gauge shutter failure and to then continuously operate the device from May 10, 1996 to January 27, 1997.
