

Mr. Bernard DuCamp
Ford Nuclear Reactor
University of Michigan
2301 Bonisteel Blvd.
Ann Arbor, Michigan 48109-2100

February 28, 1997

Dear Bernard:

Unclosed with this letter are the reactor operator license examinations for Mr. Richard McCue (Section A only) and Mr. Michael Landis (Section C only). Because the two examinations are for different sections, the examinations need not be administered at the same time. Please ensure the examinations are proctored in accordance with NRC rules. I have attached a copy of the NRC's guidance for proctoring examinations with this letter. Each candidate has one hour to complete his examination.

If the candidates have any questions regarding examination tests items, please respond by telling the candidate to answer the item as best he can, and make a note of the question so that we may discuss it later. If there are any major problems, I can be reached by telephone at (301)415-1058, or Internet E-mail at pvd@nrc.gov.

This is the first time that a retake examination has been administered at your facility in this manner. We hope that we may continue this process in order to realize cost savings and efficiencies. Thank you for your cooperation and support.

Sincerely
