Office of Licenses
799 Roosevelt Road
Glen Ellyn, Illinois 60137

Re: License No. 12-11483-01

Gentlemen:

Dr. Richard Wallyn will replace Dr. Apparao Devata as Radiation Safety Officer at St. James Hospital Medical Center, effective immediately. Dr. Wallyn has served as Radiation Safety Officer in the past and his credentials are on file in your office.

I understand that the Nuclear Regulation Commission will grant Dr. Wallyn temporary approval until review of his credentials has been made, after which final approval will be granted.

Thank you for your assistance in this matter. We look forward to hearing from you.

Sincerely,

George L. Belock
George L. Belock
Executive Vice-President
